

## Letter of Reference:

Dear Sir or Madam,

We are happy to certify that we have had a very good and trusting cooperation with Antal International Deutschland GmbH for several years. Our company has been an innovative solution provider for laboratory diagnostics for 30 years. In Germany, we were recently successfully placed with a product manager who has been with us for over 2 years and brings great added value to us.

Antal's communication was always flawless, and there was a smooth interface to our headquarters in Italy, even internationally. We really appreciated the flexibility and availability of the consultants. We had the impression that our vacancies were treated very urgently and exclusively.

For job interviews in Germany, Antal's offices were made available to us free of charge on several occasions. The selection of suitable and qualified candidates in the interview process convinced us very much and shows that Antal understood our requirements very quickly.

Thanks to your services, we are able to obtain qualified staff quickly and counteract staff shortages effectively.

For us one of the best experiences in comparison to the competition in recruitment. Working with Antal is always flawless and we have come to appreciate you as a reliable, flexible and reputable business partner.

After this very good experience, we look forward to continued good and trusting cooperation and can warmly recommend you to other companies.

Kind regards  
Laboratory Diagnostics Client  
Germany GmbH
